"E Mau" voyage, 1999

E Mau ē, ka ihu pani hoʻokele waʻa
Hoʻohanohano ʻia i kona ʻāina hānau iho nō

Mau, the grand master navigator
Honored in his own home land

Makaliʻi, kahi waʻa no Hawaiʻi
E holo ana no Maikonekia i ka moana nui ākea

Makaliʻi, canoe from Hawaiʻi
Sails to Micronesia in the big, vast ocean

ʻO Mau nō, kai hoʻomālamalama
I ko Polenekia no ia mea o ke kilo hōkū

Mau is indeed, the one who enlighted
All of Polynesia with non-instrument navigation

Hāʻina ʻia mai ana ka puana
Nou ia e Mau ē, ka ihu pani hoʻokele waʻa

The story is told
For you, Mau, the grand master navigator

I Ola Nō Ke Kino

I ola nō ke kino i ka māʻona o ka ʻōpū
I māʻona nō ka ʻōpū i ke aloha o ka mākua
E pū paʻakai kākou me ka mahalo
Ua loaʻa hoʻi iā kākou ka ʻai a me ke aloha

The body is nourished by filling the stomach
The stomach is filled by the love of the parents
Let us share this food together with thanksgiving
Thankful that we have food and love

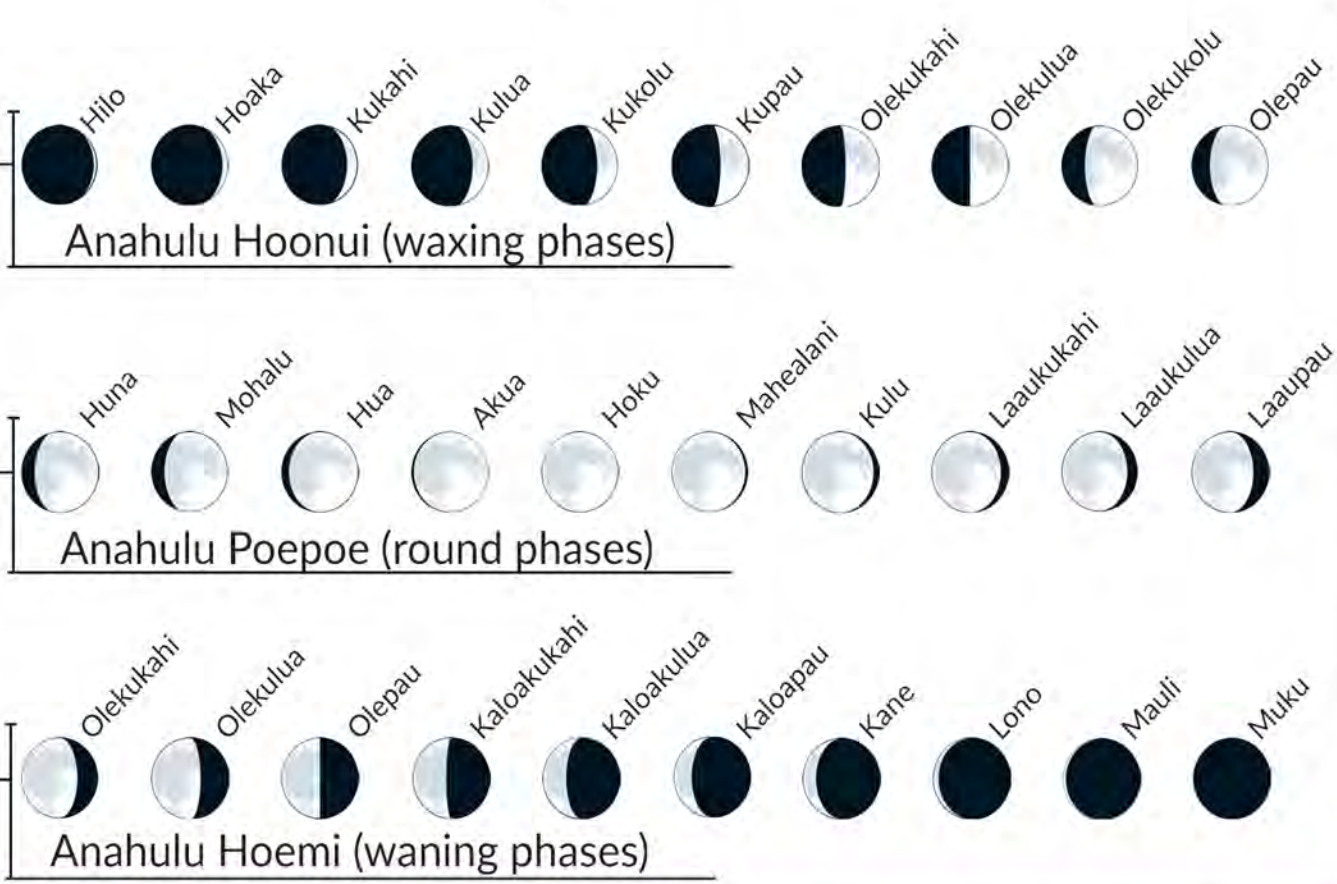
The Hawaiian Lunar Calendar

A brief explanation.

There are 30 moon phases in the Hawaiian lunar month (malama). Each moon phase has its own name.

The first moon phase of every malama is Hilo, the last phase is Muku. One malama is broken down into 3 anahulu. Each anahulu consists of 10 moon phases.



Anahulu

The 3 anahulu are characterized by the shape, waxing, or waning of the moon.

Malama

One malama consists of 30 moon phases.

OLELO NOEAU

He Waʻa He Moku, He Moku He Waʻa

Our Island is our canoe, our canoe is our island.

Kau ka peʻa, holo ka waʻa!

Up go the sail; away goes the canoe.

Pae maila ka waʻa i ka ʻāina.

The canoe has come ashore.Hunger is satisfied; desire fulfilled

Ka manu kaʻupu hālō ʻale o ka moana.

The albatross that observes the ocean. A careful observer.
